BLU J

Based in San Francisco & Vancouver, BLU J is an electronic duo consisting of Alex Blue & Jay Wiltzen. Sharing a passion for powerful, emotionally driven electronic music they began to craft their collective sound in 2012. With musical backgrounds in saxophone, guitar, and piano Alex and Jay produce harmonically enriched bass-driven music. Incorporating lush soundscapes, percolating percussion, heavy rhythm, and huge basslines, the duo has carved a unique sound that blurs the traditional genre boundaries. BLU J engages audiences with high energy sets, performing a varied yet cohesive range of sounds all the way from downtempo to house.

Having exclusive releases with Mal Label, support from blogs such as EDM.com, Run the Trap, and Earmilk, to headling Awakening music Festival in BC, Canada in July, 2014 proved to be their breakout year. Expect even more come 2015.
